Classical Music Magazine (Guy Weatherall - 2019.09.01)
source: http://agoraclassica.com/reviews/magazin...

This fifth volume of one of the most impressive cycles to emerge in recent years showcases bold, powerful playing. Achieving an almost unnerving intensity – vibrato all but suspended – in the famous Dankgesang movement, the entire disc displays unanimity and depth of playing of the very highest order. That no less a guest than the Emerson Quartet's viola joins them for the much earlier quintet is testament to the authority and importance of this ongoing project.
