Customer Review: The best choice!

This ensemble is literally bringing Beethoven's quartets to life. Listening to these recordings – part of a series that will include all the quartets by Ludwig Van – you can appreciate not only the great skills of the musicians, but an overall vision of the composer's evolution. Beautiful tone, timing and dynamics are just part of a consistent view of the music, where details and global perspective are inextricably linked. In my opinion the Quartetto di Cremona has achieved the musical awareness of the best ensembles of the past (whose recordings were often of poor quality). The clear and natural sound of these CDs make sure that the listeners don't miss a breath of the range of emotions generated by this performance.
